### ☆ Our focus is performance.

What is there to sell?

We believe there are three key "Marketing Ps" for investment portfolios:

**Performance, Performance, Performance.**

So, that's exactly what we share via our Elysium | Social platform and associated tools. This is simplified investing — our Affiliates- Introducing Brokers simply share the results generated by our 'Pinnacle Portfolio', Elysium Capital's flagship product. (2) (5) (6)

### ☆ The retail trader trap.

**"90% of retail traders lose 90% of their money within 90 days."**

Money is taken by smart money trading against them. On many occasions, brokerage firms and exchanges trade against retail traders!

Elysium's 'Pinnacle Portfolio' strategy is synonymous with smart money.

### ☆ Democratising wealth.

**Elysium makes premium hedge fund revenues accessible for all.**

Though past performance does not always guarantee success, consistent profits is what we strive for. New clients can enter for as low as €500 to test the waters and redeem their funds at any time. (3)

### ☆ Challenging the status quo.

We aim to deliver the highest rewards for our retail investors.

Our 'Pinnacle Portfolio' focuses on the best risk-to-reward ratio possible. Never before has there been a fully compliant and regulated multi-tiered programme for Introducing Brokers to refer their retail clients to. (6)

This is no longer an exclusive domain restricted to professional and accredited investors — now anyone has a fair chance at sustained long-term residual income. (1)

### ☆ A 10-year winning trading desk.
